About NORDST

NORDST – standing for Nordic Style – is a young Danish furniture and accessories brand specialized in combining the timeless and contemporary Scandinavian design, with a luxurious yet versatile natural element such as marble.

Vision

At NORDST our goal is to become a well-known Contemporary marble furniture brand worldwide, offering competitive prices for all our products keeping a great quality standard.

History

Founded in 2016 by Ulrich Heegaard, NORDST is the outcome of years of experience in both furniture design and marble industry. The passion of Mr. Heegaard for Scandinavian furniture dragged him in a path of research and practice in product design, especially the one related to his origin country, Denmark.

Together with his more than 10 years of experience with marble all around the world and able to identify the good value of marble, the potential for creating a brand and exceptional products came along, and nowadays we have grown to deliver our pieces not only in Europe but also in the booming Asian market.

Design philosophy

Our love for natural elements has always been fundamental for us, and in the broad field of natural materials, we have found in marble the inspiration to design and create unique furniture. Following our Danish and Scandinavian tradition, all our products have been granted with a timeless and lasting design, characterized by minimalistic and geometrically oriented shapes, exalting the already magnificence and uniqueness of marble. More than a conventional furniture brand, we offer original pieces in a wide range of models and styles to fit in any space and combine with many other furniture and interior styles.

TEDDY
—

TEDDY

- + Design inspired by the shadows of a table during sunset
- + Marble top appears like soaring above ground
- + A very attractive design with a balance of proportions

Note: Not two marble tops are the same; every pattern is unique
